Internal Family Systems℠ Therapy
Level 2 Intensive Training Program (437)
IFS, Trauma and Neuroscience
Watertown, MA :: May 2018

The Internal Family Systems Model

Internal Family Systems℠ is at the forefront of a movement toward a more collaborative therapeutic approach that relies on clients’ intuitive wisdom. IFS℠ offers a clear, non-pathologizing, and empowering view of human cognitive and emotional life and provides a dynamic therapeutic approach that allows both therapist and client to enter into a transformational relationship in which healing can occur.

Richard C. Schwartz, PhD, has been developing the IFS model for more than 30 years, with IFS now practiced by thousands of licensed therapists and other professionals throughout the United States and internationally. Mental health care professionals and others trained in the IFS model can easily integrate it into a wide variety of practices using the unique methods IFS offers to create safe environments for clients to become Self-transforming. Internal Family Systems therapy is a simple yet sophisticated integration of psychology, spirituality, and intra-psychic and family systems theory that:

- Works well with couples, families, groups, and children;
- Can effectively treat trauma;
- Is a client-led approach that respects each client’s pace and goals;
- Establishes a productive, trusting, and collaborative partnership between therapist and client;
- Helps therapists remain centered and open-hearted.

Internal Family Systems: An Evidence-Based Practice

Internal Family Systems (IFS) is now posted on NREPP as an evidence-based practice. NREPP is the National Registry for Evidence-Based Programs and Practices, a national repository that is maintained by the U.S. government’s Substance Abuse and Mental Health Services Administration (SAMHSA). Interventions listed in NREPP have been subject to independent, rigorous scrutiny, and are deemed to show significant impact on individual outcomes relating to mental health.

As a clinical treatment, IFS has been rated effective for improving general functioning and well-being. In addition, it has been rated promising for improving each of: phobia, panic, and generalized anxiety disorders and symptoms; physical health conditions and symptoms; personal resilience/self-concept; and depression and depressive symptoms.

These scientific findings and the listing of IFS on NREPP affirm the vast potential of IFS therapy for advancing emotional healing and mental well-being. In particular, they indicate promising effects on mind (depression, anxiety), body (physical health conditions), and spirit (personal resilience and self-concept).

Training Location

Watertown is a quaint New England suburb located just 20 minutes from downtown Boston. Watertown Center for Healing Arts has been welcoming IFS trainings for many years, and is easily accessible from major highways and public transit. Located in the heart of Watertown Square and an easy walk to charming shops and restaurants, Watertown Center is a great venue for your IFS training!

Curriculum

Overview: The growth of IFS is a testament to the power of its healing capacity. With IFS, individuals are able to rapidly unload traumatically held beliefs, sensations and emotions that burden their lives, allowing for Self-led transformation. The last decade has shown a similar expanse in neuroscience knowledge. We now have a greater explanation for what is happening in the brain during psychotherapy and how this leads to changes in functioning.

Each day of this training will have a different theme that will help participants to master the skills required to treat trauma and dissociation as it relates to the IFS model of therapy. Participants will learn about:

- Identifying and working with traumatized parts using meditation, bodywork, un-blending, and direct access;
- Using their Self and the Self of the client with Dissociative Identity Disorder (DID) and Attachment trauma’s;
- Working with extreme parts that are hyper- as well as hypo-aroused, including suicidal, self-harming, substance abusing, dissociative, and shame-based parts;
- Unburdening exiles, updating the system, and re-establishing trust in Self; and
- Integrating other therapies with IFS.

In addition to reinforcing the learning of IFS theory and technique, the training invites participants to explore parts of themselves that get activated when working with trauma, in the safe, nurturing environment of the training itself. Participants will be helped to:

- Understand the particular components of the IFS model that are relevant to the treatment of trauma;
- Apply IFS techniques when working with Dissociative clients; and
- Take advantage of experiential learning to foster personal growth and development.

Learning Objectives: Please visit www.selfleadership.org, FAQ page.

Format: The training includes lectures, large and small group discussions, live and video demonstrations, and experiential practice groups.

Program Hours: The training runs for five consecutive days and has a total of 32 program hours. The daily schedule is available later in this brochure.
Trainers

**Lead Trainer: Richard Schwartz, PhD**, began his career as a systemic family therapist and an academic at the University of Illinois and Northwestern University. Grounded in systems thinking, Dr. Schwartz developed the Internal Family Systems model in response to clients’ descriptions of various parts within themselves. In 2000, he founded The Center for Self Leadership. A featured speaker for national and international professional organizations, Dr. Schwartz has published five books and over 50 articles about IFS.

**Guest Trainer: Frank Guastella Anderson, MD**, is a psychiatrist who has spoken extensively on the Neurobiology of Post-Traumatic Stress Disorder and Dissociation. After discovering Internal Family Systems, his passion has evolved into the integration of neuroscience, trauma and IFS. He is Chair of the Foundation for Self Leadership and has served on the Research Advisory Committee and Speakers Bureau for The Center for Self Leadership. He wrote a chapter in *Internal Family Systems Therapy: New Dimensions*, “Who’s Taking What?” Connecting Neuroscience, Psychopharmacology and Internal Family Systems for Trauma. He is a supervisor at The Trauma Center in Brookline, MA, and maintains a private practice.

**Assistant Trainer: Frances D. Booth, LISCW**, is a long-time IFS therapist who seeks to cultivate Presence in work and in life. She graduated from Cornell University and Simmons School for Social Work, and has held faculty positions at Smith College School for Social Work, Tufts Medical School, and The Massachusetts School for Professional Psychology. She practices in Andover, MA, and at the Virginia Thurston Healing Garden Cancer Center in Harvard, MA. Fran’s specialties include trauma, anxiety, depression, cancer, eating disorders, and attachment disorders. She loves to sing, dance, laugh, dine, and attend the theater.

Certificate of Completion

A Certificate of Completion is awarded by The Center for Self Leadership, and a participant must complete 27 of the 32 program hours offered in order to be eligible to earn this certificate. Participants are responsible for ensuring that they attend sufficient training hours to earn the Certificate of Completion. The daily schedule is available later in this brochure.

IFS Certification

Participants are not Certified IFS Therapists or Practitioners until they successfully complete the IFS Certification process. Information about the criteria and procedures for becoming IFS Certified is available on the CSL website certification page or by emailing certification@selfleadership.org.

Eligibility for Future Trainings

By earning The Center for Self Leadership’s certificate of completion for this training, a participant is eligible to apply for a Level 3 IFS training program. Participants are not required to be Certified IFS Therapists or Certified IFS Practitioners to enroll in IFS trainings.
To Apply

Who Should Apply: Anyone who has completed a Level 1 IFS training program is invited to apply.
